ABOUT ME

Last-year Computer Engineer student seeking to further enhance my expertise in the software engineering field. Skilled in multiple programming languages including C++, Java, JS, NodeJS. Acquired through both university courses and self-learning. I am eager to learn more programming languages and passionate about learning languages in general.

REFERENCES

Available upon request.

EDUCATION

Bachelor of Computer Engineering, An Najah National university, Nablus

Expected - June 2024
. Proven track record of academic success with 3.15 GPA in computer engineering program.

High school diploma, Siris Secondary Girls' School, Jenin
2019
. Recipient of High School Diploma with honors and 97.7 GPA in the scientific stream.

EXPERIENCE

Registered in Arduino Practical Course, IEEE
